PUBLIC NOTICE NO. 03/2007

Sub :- Testing of samples in case of goods for which benefit of

Dbk sub. sl. No. 732301 is claimed. – m/r.

Attention of trade, exporters is drawn to the subject mentioned above.

It has come to notice that exporters are claiming benefit of Dbk sub. sl. No. 732301 applicable to ‘Table, kitchen or other household articles of stainless steel ‘ with nickel content 8% or above. However, no test / analysis report is submitted during assessment or thereafter. It is therefore brought to the notice of the exporters that they are required to submit the test reports at the time of assessment or examination. If samples have been drawn during factory stuffing, proof of having submitted it to DYCC
should be shown to assessing staff / examination staff in the export shed. In case of
dock stuffing, the exporters are required to cooperate with the staff for drawal of
samples, as the same is mandatory under CBEC circular No. 34/95-cus., dt.
06.04.1995. A separate S.O. has been issued to inform staff posted in export sheds to
give proper examination orders while assessing/examining such goods. As the
drawback payable varies according to the nickel content of the goods falling under sub.
sl. No. 732301, benefit of the same cannot be extended unless the goods are tested
and test report is available. Therefore the general trade, exporter/CHAs are requested
to cooperate with export staff in drawal of samples / testing of samples in the case of
such goods where benefit of Dbk sub.sl. No. 732301 is claimed and in all such similar
cases where drawback payable is dependent upon % constituent of a material in export
goods.
