2. विभाग की ओर से निम्नलिखित अधिकारियों ने बैठक में भाग लिया :-
Following Officers from the department attended the meeting :-

क्रमसं./ Sr.No.	नाम (सर्वश्री/सुश्री/श्रीमती) Names(S. Shri/Ms./Mrs.)	पदनाम Designation
1.	Sushil Chandra	Addl. Commissioner of Customs, JNCH
2.	Shweta Chander	Addl. Commissioner of Customs, JNCH
3.	Suresh Merugu	Addl. Commissioner of Customs, JNCH
4.	Dinbandhu Diwakar	Joint Commissioner of Customs, JNCH
5.	Raguram K	Joint Commissioner of Customs, JNCH

3. Shri Sushil Chandra, Addl. Commissioner of Customs, JNCH started the discussion on the agenda points of the meeting relating to the import.

4. **कार्यबिन्दु/AGENDA POINTS:**

सी.एस.एल.ए. के द्वारा उठाया गया कार्यबिन्दु/Agenda Point raised by CSLA

कार्यबिन्दु संख्या 01/Agenda Point 01: Scanning of ICD Import containers to be allowed for "M" scanning - Import ICD Containers are selected for "D" or "M" scanning by the automated RMS system. For "D" scanning, Containers are required to be taken outside the port by following gate out/gate in process which is a complicated & time consuming process. Such type of scanning for ICD containers requires customs permission, gate-in / gate-out formalities etc., which attracts huge additional cost also. Presently mobile scanners are functional inside the port terminal for DP World/GTI & JNPT for which no gate-in/gate-out/any special customs permission is required. Most of the times ICD containers are allowed for "M" scanning by customs scanning department whenever they are approached.

As of now BMCT terminal does not have mobile scanners. The ICD containers arriving at the BMCT terminal are made to be scanned outside the port terminal at "Drive Through" scanning site by arranging customs permission & following the gate-in / gate out process which increases the dwell time of cargo clearance & attracts huge additional cost.

We therefore request JNCH to simplify the process by considering the following process.

1. No separate permission should be required for scanning of the containers. Just as in the case of local containers, the scanning of ICD containers should also be allowed on the basis of the scanning list generated by the Customs automated RMS system.

प्रतिक्रिया/Response:-

The issue has been flagged with NCTC. A request to NCTC has been made to select ICD containers for Mobile scanners only.

2. *Since the express road which connects BMCT to the other three port terminals inside the port area itself is now functional, the Import ICD Containers arriving at any of the terminals including BMCT terminal should be assigned for scanning at "M" scanner stationed at the respective terminals (GT/JNPT/DP World). BMCT containers should be allowed for "M" scanning at any of the terminals till such time the "M" scanner is commissioned at BMCT.*

प्रतिक्रिया/Response:-

After considering the issue, it is decided that ICD containers of vessel berthed at BMCT will now be diverted to MXCS at JNCH/NISICT until the scanner at BMCT comes into operation.

3. *Since the ICD Containers do not move out from the port area for scanning, the EIR (Gate out pass) is not generated for Import ICD containers. Scanning status (Cleaned/Suspicious) is stamped by the scanning department on EIR documents for local import containers. Since automated SMTP documents for all ICD Containers are processed by ICEGATE, the scanning department should be directed to stamp scanning status (Cleaned / Suspicious) on the SMTP document.*

प्रतिक्रिया/Response:-

In both the cases i.e. local import container and ICD containers, the clean/suspicion stamp are being marked on the reverse of EIR and SMTP documents respectively.

**सी.एफ.एस.ए.आई के द्वारा उठाया गया कार्यबिन्दु/Agenda Point raised by
CFSAI**

कार्यबिन्दु संख्या 02/Agenda Point 02: Way Forward and solution on Non Receipt of Scanning List - Our Member CFSs have been facing the challenge on Non Receipt of Scanning list from CSD JNCH impacting the movement and increasing the dwell time. Recently for 17 vessels the scanning list was not released causing severe delay and CFSs members enblock evacuation got severely impacted. Delay in evacuating from Terminals results

in a penalty which is ultimately passed on to CFSs for no fault of theirs. Further when the list is released, all TTs rush to the scanning yard and there is a total roadblock and jam and a chaotic situation. It is suggested that going forward, JNCH may consider an alternate solution in case there is delay in receipt of scanning list so that the trade does not suffer. Seek JNCH intervention and resolution to this matter by way of PN/Guidelines.

प्रतिक्रिया/Response:-

Due to system issue of RMCC, the scanning list got delayed for 17 vessels recently. In this regard, Public Notice 31/2021 and 04/2019 are already in place to resolve the same. However, it will be given more attention to ensure that such difficulties will be shorted out in a short span of time.

बी.सी.बी .ए.के द्वारा उठाया गया कार्यबिन्दु /Agenda Points raised by BCBA

कार्यबिन्दु संख्या 02/Agenda Point 02: *Agenda Point No. 02:- Special import permits issued for specified items are not debited in System: We request Dept. that the same may be debited through system.*

प्रतिक्रिया/Response:-

Special import permits with respect to quantity and valid date of import issued by DGFT is not transmitted electronically to ICES hence, presently it is not being debited in the system. Such suggestions can be explored in future.

[बिन्दु समाप्त/Point

Agenda Point No. 03:- Heavy burden on TSK Cell: As requested earlier, Bond Numbers are being sent to TSK and released through system. Twice a day, bonds are being forwarded for release through system and physical signatures.

Suggestion:

Trade has requested to ask DC to release through system and physical signature may be taken later on so that member can complete examination part on the same day. This will save lot of time.

प्रतिक्रिया/Response:-

After receipt of bonds in TSK, the same are scrutinized by Superintendent/Appraiser, TSK and put up for acceptance of AC, TSK. The acceptance of bonds in the EDI system and on the hard copy of bond is done by AC, TSK simultaneously. However, we will further examine the issue and find out the best possible way to resolve the same.
